ABSTRACT PAINTING Poetry | Prayer | Longing

Water, Acrylic on canvas

“ Painting is a poetry, prayer, longing, joy bursting, cry and a search... Painting is my existential need, to express myself in color, shape and texture, in which the words are not enough... A universal language, moving emotions with meaning, affecting each person differently. My creative process is a journey unknown and not yet designed. Sources of inspiration include music with many colors, sights, and local landscapes forged in my mind, the emotional world and small moments of grace and excitement”.
